Adding the Class

Before the class begins you may sign up for the class on Student Admin (PeopleSoft).

Permission Numbers: Before First Day of Class

No permission numbers are given out before the first day of class. Please do not ask for one before then. If the class is full, please place yourself on the math department waiting list. Please note, if the class is in high demand and the waiting list is long, it is unlikely that you will be able to enroll in this section. You may wish to find another section that is open or that has a shorter waiting list.

Permission Numbers: After First Day of Class

Usually the class is completely full and there are no seats available. If a seat does become available, it please grab it by signing up for the class in PeopleSoft. However, sometimes there may be some limited room after the class begins and a chance for more students to enroll. If this is the case a few permission numbers may be given out.

If you would like to be eligible to receive a permission number you must inform the instructor on the first day of class. If it is not possible to give a permission number, you may wish to try to add the class via PeopleSoft or look for another section to add.

You will also need to send an email to him with the following information:

(a) Your full name
(b) Your NetID and UConn e-mail
(c) The class and section numbers with the date and meeting times

This information is needed to verify that you meet the prerequisites for the class. Further information may be requested. Failure to send the instructor this information in a timely manner may disqualify you from receiving a permission number.

If permission numbers are given out (and there is no guarantee they will), they should be given out before the end of the second week of class. If you receive a permission number, you will be sent it via email. Once you have used the permission number again contact the instructor via email so to make sure you have access to HuskyCT and WebAssign. Permission numbers expire after a limited period of time, so it is important that you enroll as soon as you receive one. A second permission number will not be issued.

No students will be allowed to enroll after the second Friday of class.

Late Adds: Make-up work

If you do add the class late, you are still responsible for completing all the online and in-class assignments from before you were enrolled. However, since some assignments may not be available to you (for instance if the assignment is on WebAssign and is inaccessible) they will be due the third Monday of class (i.e. two weeks after the first day of class). Note, you will still be expected to turn in all future assignments and complete all quizzes/exams on their original due dates. Failure to complete these assignments may result in a zero. No extensions will be given on make up work.
Policies and Coursework

Grades

Grades are based on your performance at the end of the term according to the grade breakdown on each item as outlined below. No extra weight will be given for effort, trying, etc. Grades are usually assigned using the standard grading scheme (i.e. with no curve) but this is subject to change at any time. Any curve or other grade changes will be announced on HuskyCT.

Grading

Below is the planned grade breakdown for the term.

<table>
<thead>
<tr>
<th>Item</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Problem Sets</td>
<td>10%</td>
</tr>
<tr>
<td>In-class Quizzes</td>
<td>10%</td>
</tr>
<tr>
<td>Reading Quizzes</td>
<td>5%</td>
</tr>
<tr>
<td>Exam I</td>
<td>20%</td>
</tr>
<tr>
<td>Exam II</td>
<td>20%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>35%</td>
</tr>
</tbody>
</table>

The grade breakdown may be changed or altered at anytime during the term. Any changes will be announced on HuskyCT.

Problem Sets

Problem sets will usually be assigned each week on HuskyCT and will be due most Tuesdays at the beginning of class. Usually homework will have between two to three sections to complete each week. Each assignment will be posted a few days before it is due, so you should have enough time to complete it. You are free to work together on homework; however, each person is responsible for their own work. Solutions to all problems will not be provided, but you are free to come ask me about problems during office hours.

No extensions will be given on homework unless there are unusual circumstances. Documentation of your circumstance may be requested. Please note that extensions will not be given for, but are not limited to, any of the following reasons: computer malfunctions, forgetting about the assignment, having another assignment due at the same time, running out of time, having a mild short term illness such as a cold, etc. Homeworks that are past due cannot be made up.

However, since situations can occur and you may not be able to complete the assignment for various reasons, the lowest homework from the term will be dropped.

Problems Sets: Grading Criteria

The homework score will be determined by a few randomly selected problems (usually between 3 and 7 problems) and graded on correctness as well as the following criteria.

(a) The solutions must be clear and concise, clearly showing all key steps for the problem.

(b) All pages must be on standard 8.5 by 11 paper and stapled together (no paper clips or torn corners) if there are multiple pages.

(c) Your name must be clearly written on every page.

(d) Your pages must have clean edges (no frayed edges if torn from a notebook).

Assignments that don’t meet the above criteria may be rejected and given no credit, or may be docked points. Assignments will not be allowed to be resubmitted.
In-class Quizzes

In-class quizzes may be given on any day the class meets. Students should expect that a quiz will be given at least once a week. These quizzes will be short (5 - 10 minutes) and will be based on previous lectures and the most recent submitted problem sets. No notes are allowed.

No early or makeup quizzes will be given. This means that makeup quizzes will not be given, but not limited to, any of the following reasons: attending an event scheduled at the same time, coming late to class, sleeping through class, or not being prepared.

However, since situations can occur and you may not be able to come to class for various reasons, the lowest in class quiz from the term will be dropped.

Reading Quizzes

In addition to the in-class quizzes, there will be weekly online reading quizzes on HuskyCT based on the topics for the upcoming week. You may use the book or your notes and may do the reading quiz at any time, but these quizzes must be completed by Monday at 11:59PM. The first reading quiz must be completed by this Monday. The online reading quizzes will be thirty minutes long and once you begin the quiz, it must be completed in one sitting. These quizzes should be posted on HuskyCT at least seven days before they are due, so you should have plenty of time to do the reading and finish the quiz.

The purpose of these reading quizzes is to encourage everyone to read the book (you did pay for it after all) before we cover the material in class. This way you have an idea of what we are covering in class.

However, since situations can occur, the lowest reading quiz from the term will be dropped.

Exams

There will be two midterm exams and a final exam during the term. The are on the following dates.

<table>
<thead>
<tr>
<th>Exam</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exam I</td>
<td>Thursday, Oct 8</td>
</tr>
<tr>
<td>Exam II</td>
<td>Thursday, Nov 12</td>
</tr>
<tr>
<td>Final Exam</td>
<td>TBA</td>
</tr>
</tbody>
</table>

The midterm exam will be during class. No early or late exams will be given. If you come late you will not be given extra time.

If an unusual circumstance comes up (see below) and you cannot take an exam, you must inform the instructor as soon as possible.

If you are in CSD and have permission for more time on exams, it is your responsibility to schedule a time with the instructor to take this exam at the CSD office on the same day as the rest of the class. No exams will be given earlier. Please be aware that CSD hours are limited and you should set up an appointment with them as early as possible.

Final Exam

The final will be cumulative (please see the list of topics covered). The final exam will be two hours long at a time scheduled by the registrar. (Please see their website for exact dates, times, and locations). No early exams will be given.

Final exams will be placed on file in the math department office shortly after grades are submitted. If you wish to see your final exam please contact them. Solutions to the final exam will not be provided.

Bunched Final Exams

A student whose schedule includes three final examinations in one calendar day or three final examinations in consecutive time blocks spanning parts of two consecutive days may request a make-up examination in place of one of the three scheduled examinations. The student must visit the iCenter at the entrance to Wilbur Cross regarding rescheduling of bunched exams. It is the prerogative of Office of Student Services
and Advocacy to determine which of the bunched examinations may be rescheduled and will send an email to both you and the instructor advising of the change. Once the instructor has received confirmation that permission is granted, you must discuss with the instructor when and where a rescheduled exam will take place. If you are not able to reschedule the exam during finals week and if high mark on the final exam will give you a passing grade in the class, you will receive a grade of X for the term and must complete a make-up exam sometime before the third week of the following term. If you do not complete the final exam before this deadline, your grade will automatically be replaced with an F. It is your responsibility to schedule a make up exam sometime before this deadline. You will not receive a reminder about this.

Permission must generally be requested before finals week and last minute petitions are usually not granted. Without permission from this office, no rescheduling of finals exams will be allowed. Please note, this policy only applies to the final exam and does not apply for Exam I or Exam II. Exam I and Exam II must be taken on the assigned dates.

Emergency Circumstances for Final

If an emergency situation arises and you are unable to take the final during the regularly scheduled time, you must contact the Dean of Students Office for approval to reschedule your exam. Without permission from this office you cannot reschedule a final exam. If your petition is approved you will need to contact the instructor as soon as possible in order to reschedule.

If your circumstance is approved but are not able to reschedule the exam during finals week and high mark on the final exam will give you a passing grade in the class, you will receive a grade of X for the term and must complete a make-up exam sometime before the third week of the following term. If you do not complete the final exam before this deadline, your grade will automatically be replaced with an F. It is your responsibility to schedule a make up exam sometime before this deadline. You will not receive a reminder about it.

If you do not receive permission from the Dean of Students Office to reschedule your exam, you will be expected to take it during the regularly scheduled time. There are no exceptions.

Errors

Since errors may occur, it is your responsibility to keep an independent accurate record of all your grades. If there is an error or your score is not recorded correctly, please bring the original graded assignments to the instructor and he will gladly fix it. No copies or scanned attachments will be accepted. If the assignment is online, please let email the instructor the exact problem and what the issue is. All errors must be brought up before the last day of class to be corrected. After this date no assignments grade can change.

Though much effort has gone into ensuring no incorrect answers for assignments, occasionally they do occur. If you are sure there is an error with an assignment, please email the instructor as soon as possible letting them know about the error. If you did spot an error you will receive high accolades from both WebAssign and your peers. However, if after an investigation it is determined that there is no error you will receive no credit for that problem.

Disputes

On the day you get back an assignment, exam, or quiz you will be given some time to look it over. If there is a dispute in the grading please come talk to your instructor privately after class explaining the issue. If you cannot meet after class or if you would like to meet at another time, please give your exam to your instructor to hold until there is a mutually agreed upon time to discuss it.

If the dispute warrants taking a closer look, The instructor will collect the assignment and will hand it back to you once a determination has been made. Note however that he reserves the right to look over you entire assignment and your score may go either up or down.

All disputes must be brought up before the assignment leaves the room with you. Once the assignment leaves, you accept the grade and will not be able to dispute it.
Returned Work and Online Grades

You should receive back all of your exams, quizzes, and other assignments in class in a timely manner, usually within one week. If you are unable to collect your assignment it will be available with the instructor and may be collected during office hours. Uncollected work that has not been collected from after a reasonable amount of time (about two weeks) may be recycled.

Your scores will be recorded online so you will have an up to date score available to you. Please check them for errors as these are the scores that will be used in computing your grade.

Extra Credit

There is absolutely no extra credit given in this class. There are no exceptions, please do not ask.

Other Class Policies

Textbook

There required textbook for the course is

Linear Algebra and its applications by David C. Lay (4th ed.)

We will not be using WebAssign for this course.

Calculators

A scientific or graphing calculator is allowed for all exams, quizzes, and homework as long as the calculator cannot do algebraic manipulation (For instance a TI-84 or equivalent or lower is an acceptable calculator). You may not use a tablet, phone, or computer as a calculator. Using these devices on an exam may result in your exam receiving a grade of 0.

Calculators may be randomly checked to see if there are any programs stored in memory. No alphanumeric formulas stored as programs are allowed. Discovery of such material will result in serious consequences. Sanctions can include, but are not limited to, a letter sent to the Dean of Students of the University; a grade of 0 on the assignment, quiz or exam; a grade of F for the course.

Visitors

Only students enrolled in the class (or attempting to enroll in the class during the first two weeks) may attend class. If you are not enrolled, you may be asked to leave. Also, please no animals unless it is a service animal.

Canceled Classes

If class is canceled (for inclement weather or other emergency) you will be notified either by the instructor and/or by the university as early as possible. If class in canceled all in-class assignments, quizzes, and exams will be due at the next class meeting. However, all online assignments (e.g. online quizzes) will still keep their original due date. No extensions will be given for online assignments unless their are unusual circumstances.

Excused Absences

In some limited instances you may request an excused absence. For instance, excused absences may be granted for religious or cultural holidays or class field trips or professional conferences. Please inform the instructor and as early as possible in writing (an email is fine) informing them of any days you plan to miss. You should contact them well in advance your your absence – at least two weeks before. Documentation may be requested to verify your absence. Please note however that just because you have requested an excused
absence, it does not mean that one will automatically be granted. If your absence is occurring frequently you may wish to consider all your options including withdrawing from the course.

If your absence is excused, it is your responsibility to contact the instructor to discuss if and when any missed work will be made up. In general if you are allowed to make up work for a missed assignment, you will need to complete all make up work within five days of the original absence; however, earlier deadlines may be given.

No notes will be provided for any of the days that you miss. Please contact one of your classmates if you wish to copy their notes. Also, this policy does not apply to online assignments. All online assignments will keep their original due dates.

Note that in general the following are not considered reasons to be granted an excused absence: sleeping through an exam or quiz, having a mild short term illness such as the cold, scheduling conflicts, not being prepared, being stuck in traffic, family vacations, etc.

**Unusual Circumstances**

Sometimes circumstances beyond anyone’s control occur randomly, without warning, and can not be anticipated. This circumstance may mean that you must miss an assignment or even an exam. If this does happen to you, please take care of your situation first and contact the instructor as soon as possible about it. It is expected that you will contact the instructor no later than one day after the missed assignment or exam. If the unusual circumstance requires you to miss an exam, you must contact the instructor before the beginning of the exam. Documentation may be requested to verify your situation. Since every situation is unique, the best course of action will need to be discussed before any decision is made about how to proceed.

Note that in general the following are not considered unusual circumstances and will not be given special consideration: sleeping through an exam, being unprepared, having other assignments or exams due at the same time, being stuck in traffic, etc.

Also note that that is expected that if you are allowed to make up an assignment you must do so within a reasonable amount of time. For instance, if you are allowed a makeup exam, you will be expected to take the makeup exam within five days of the missed exam. Earlier deadlines may be given.

Finally, if your unusual circumstance occurs during finals week, you will need to contact the Dean of Students Office about rescheduling a final exam. Without permission from this office, not final exams may be rescheduled.

**Students with Disabilities**

The Center for Students with Disabilities (CSD) at UConn provides accommodations and services for qualified students with disabilities. If you have a documented disability for which you wish to request academic accommodations and have not contacted the CSD, please do so as soon as possible.

Working with the CSD we are happy to make reasonable accommodations to any students with disabilities. Though you are under no obligation to do so, if you wish to discuss with me any special needs you may require, please feel free to speak with the instructor privately either via email or during office hours.

If you disability is not documented through the CSD, please contact them directly. Without documentation from this office no alternative accommodations are able to be provided.

**Final Grades**

Great care is taken when determining final grades. Once grades are submitted to the registrar they are final. Grades will only be changed in limited circumstance such as if there is a computational or clerical error. No retroactive grade changes will be given.

**Academic Integrity**

All students are bound to follow the rules for the [UConn Student Code](#), including the rules of [academic integrity](#). All infractions will be reported to the Dean of Students and disciplinary action including expulsion
from the university may occur. In addition other sanctions may be implemented and can include, but are not limited to, a grade of 0 on the assignment, quiz or exam or a grade of F for the course.
