Math 3260 Spring 2013
Reed Solomon

Office: 214 MSB, 486-2341.
Email: david.solomon@uconn.edu
Web Page: www.math.uconn.edu/~solomon
Office Hours: To be determined

Grading: Homework (1/3), a midterm exam (1/3) and a final exam (1/3).

Homework: There will be approximately 8 homework assignments for this course.

Textbook: The textbook for this course is *A Friendly Introduction to Mathematical Logic* by Christopher C. Leary. Currently, this book is out of print but the author has kindly agreed to let us use it for this course.

Exams: The midterm exam will be in class and will cover Chapters 1 and 2 of the textbook. I will be scheduled the exact date when we get close to the end of Chapter 2. The final exam will be cumulative but will focus on the material in the second half of the course.

Office Hours and Additional Help: This course moves quickly and it is extremely important that you don’t get behind. I strongly recommend visiting me in office hours if you find yourself having difficulties with the material. It is much easier for us to discuss a section of the textbook to keep you caught up that to try to discuss an entire chapter.

Academic Integrity: Instances of academic dishonesty are taken very seriously at UConn. Please read www.community.uconn.edu/student_code_appendixa.html. If you ever have a question about whether certain behavior constitutes academic dishonesty, you should ask!
